## Developmental Screening

### **The Earlier the Better- Don't Wait!**

A developmental screening is an opportunity for school staff to observe and interact with your child. The screening will give parents the following information:

- How your child is using language and communicating
- How your child is learning
- How your child is interacting with others
- How your child moves their body

All Wethersfield residents between the ages of 3-5 (who are not Kindergarten eligible) are invited to attend a monthly developmental screening. Please call the Wethersfield Board of Education, Special Services Office at 860-571-8137 to sign up for a screening.

*If you have concerns about your child younger than 3, please call Connecticut's Birth-3 Program at 800-505-7000.*
